

# Business TV

**Your new television –  
works everywhere, wherever you are!**

Keep the whole family entertained with our new state-of-the-art television, which broadcasts programmes in high digital quality. Or watch a live broadcast of your favourite sporting event right in the office. Don't miss the next episode of your show just because you want to spend the weekend at the cottage. Record it and watch it at your leisure when you get home. Or would you rather watch it from the archive? Our television allows you to do it all at any time, wherever you are, with whomever you are.

For over 20 years, SWAN has been striving to meet the needs of business customers in the field of telecommunication services and is constantly expanding its portfolio. The transition from television, which operates on traditional technologies, to the Internet Protocol world brings with it new ways of using television and possibilities of its integration into the offer of telecommunication services. The customer will appreciate one complete offer from one provider on one invoice.

Business TV is the right choice for your home and your office. Thanks to the feature-packed digital TV, your TV set becomes a home entertainment centre or a source of after-work relaxation. To watch hundreds of channels in the highest quality, all you need is an internet connection with a recommended speed of 10 Mbps. Choose one of four basic packages, plus thematic packages or additional services of your choice.

## Service parameters

- **4 basic packages** with a different number of channels S (>40), M (>50), L (>80), XL (>110)
- **Timeshift function** – pause, rewind with preview, replay the ongoing programme from the beginning
- **Electronic programme guide** – accurate programme information with a calendar function
- **Connect up to 4 devices** to the single service (usable in parallel)
- **Basic and extra archive** of 7 days
- **Service provision via a set-top box or without it** (with full-featured applications)
- **Artificial intelligence** – the homepage displays ongoing programmes, recommended programmes, sorts content by genre, etc.

## Benefits of the service

- **Service availability anywhere** via internet
- **Wide device support:** set-top box, smartTV (Samsung, LG, Sony, Philips), mobile phone/tablet (iOS, Android), AndroidTV, AppleTV, internet browser
- **Modern interface design**
- **Fast response** when navigating within individual user interfaces
- **Basic archive included in the price** (for 10 channels)
- **Recording and saving** of programmes of up to 24 hours for 30 days
- **Varied offer of channels** of different genres
- **Additional thematic packages** (HBO, Cinemax, Filmbox, Hungarian)
